All contract assets and contract liabilities are mainly from contract works and road milling and resurfacing services. The changes in the contract assets and contract liabilities for the period/year were resulted from the pace of the progress of certain projects and the timing of approval for progress billing application for certain projects.

Retention sum for contract works are settled in accordance with the terms of the respective contracts. In the unaudited condensed consolidated statement of financial position, retention sum for contract works were classified as current assets based on operating cycle. Prior to expiration of the defect liability period, these are classified as contract assets, which ranges from one to five years from the date of the practical completion of the construction. The relevant amount of contract asset is unsecured and interest-free and reclassified to trade receivables when the defect liability period expires. The defect liability period serves as an assurance that the construction services performed comply with agreed-upon specifications and such assurance cannot be purchased separately. The terms and conditions in relation to the release of retention vary from contract to contract, which is subject to practical completion or the expiry of the defect liability period.

## 18 CONTRACT ASSETS/(LIABILITIES) (CONTINUED)

Contract assets represent the Group's right to receive consideration for work completed but not yet billed because the rights are conditional upon the satisfaction by the customers on the construction work completed by the Group and the work is pending for the certification by the customers. The contract assets are transferred to the trade receivables when the rights become unconditional, which is typically at the time the Group obtains the certification of the completed construction work from the customers.

The Group classifies these contract assets as current assets because the Group expects to realise them in its normal operating cycle.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for other borrowing purposes.

Variable lease payment of land, initially measured using the rate at the commencement date, will be revised based on market rent prevailing every year but each increase shall not exceed 5.5% of the annual rent for each immediate preceding year. The Group reassesses the right-to-use assets when the lease payment is revised.

Leases are recognised as a right-of-use asset and corresponding liability at the date of which the leased asset is available for use by the Group.

## Notes to the Condensed Consolidated Interim Financial Statements

**23 LEASES (CONTINUED)**

Each lease payment is allocated between the liability and finance cost. The finance cost is charged to consolidated statement of comprehensive income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

# Management Discussion and Analysis

## INDUSTRY OVERVIEW

The demand for civil engineering utilities market in Singapore is expected to remain robust and experience steady growth throughout 2023. The construction prices are less volatile compared with 2022 and most of the building materials and subcontractors' prices are more stable. According to the Ministry of Trade and Industry Singapore ("MTI") announcement on 11 August 2023, the construction sector grew by 6.8% year-on-year, similar to the 6.9% recorded in the preceding quarter. Both public and private sector construction output rose during the quarter.

## BUSINESS REVIEW AND PROSPECT

The core business and revenue structure of the Group have remained unchanged for the six months ended 30 June 2023. The Group's operations, other than those of certain joint ventures, are located in Singapore and our revenue and profit from operations are solely derived from contract works rendered within Singapore. The Group is actively involved as a main contractor or subcontractor in both private and public sector projects and the revenue was principally derived from (i) contract works in relation to the installation of power cables, telecommunication cables (including ISP works and OSP works) and sewerage pipelines by applying methods such as open cut excavation or trenchless methods; (ii) road milling and resurfacing services; (iii) ancillary support and other services; and (iv) sales of goods and milled waste. Additionally, the Group is exploring potential business opportunities of building materials trading in China.

While the civil engineering industry is expected to grow to pre-pandemic level, the Group expects operating conditions to remain challenging in 2023. For the six months ended 30 June 2023, the Group recorded a total revenue of approximately S\$46.1 million, representing a decrease of approximately S\$6.4 million from approximately S\$52.5 million for the six months ended 30 June 2022. The decrease in revenue was mainly due to lower revenue generated from contract works during the six months ended 30 June 2023 compared to the six months ended 30 June 2022. The civil engineering industry continues to be constrained by rising labour and raw materials costs and supply chain disruptions, which will put the industry under pressure to complete existing projects on time. In addition, the current interest rate environment is expected to raise the Group's cost of borrowing and consequently affect its overall margins. These unfavourable factors have affected the operations of the Group in Singapore.

Business strategies of the Group remained unchanged for the six months ended 30 June 2023. Looking ahead, the Group will (i) closely monitor the pace of market recovery from the COVID-19 and assess its impact on its operations continuously; (ii) continue to leverage its solid track record and proven expertise to tender for public and private sector projects; (iii) prioritise cash conservation; (iv) adopt tighten cost control measures; (v) actively participate in tendering for new projects to strengthen the Group's market position; and (vi) exercise caution when exploring business opportunities during this period.

# Management Discussion and Analysis

## ONGOING PROJECTS

As at 30 June 2023, the Group had 40 ongoing projects, including 37 ongoing power cable installation projects and three telecommunication cable installation projects with an aggregated contract sum of approximately S\$257.5 million, of which approximately S\$145.5 million has been recognised as revenue up to 30 June 2023 (31 December 2022: 40 ongoing projects, including 36 ongoing power cable installation projects and four telecommunication cable installation projects with an aggregated contract sum of approximately S\$267.0 million, of which approximately S\$164.2 million has been recognised as revenue). The remaining balance will be recognised as the Group's revenue in subsequent periods in accordance with the respective stage of completion.

### Revenue

The following table sets out the breakdown of the Group's revenue by goods and services types for the six months ended 30 June 2023 and 2022.

	For the six months ended 30 June	
	2023 S\$'000 (Unaudited)	2022 S\$'000 (Unaudited)
Revenue from contract works		
— Power	32,803	44,719
— Telecommunication	4,771	2,801
Subtotal	37,574	47,520
Road Milling and resurfacing services	5,957	3,151
Ancillary support and other services	1,776	1,080
Sales of goods and milled waste	794	720
Total	46,101	52,471

## Management Discussion and Analysis

Our revenue decreased by approximately S\$6.4 million from approximately S\$52.5 million for the six months ended 30 June 2022 to approximately S\$46.1 million for the six months ended 30 June 2023 representing a decrease of approximately 12.1%. This decrease was mainly attributable to:

- (i) decrease in revenue from contract works by approximately S\$10.0 million with combined effects of (a) the decrease in revenue from power cable installation projects by approximately S\$12.0 million was mainly due to lesser progress of the projects with revenue recognised during the six months ended 30 June 2023 compared to the six months ended 30 June 2022; and (b) the increase in revenue from telecommunication cable installation projects by approximately S\$2.0 million was due to substantial progress of three of the projects with revenue recognised for the six months ended 30 June 2023 compared to 30 June 2022;
- (ii) increase in revenue from road milling and resurfacing services by approximately S\$2.8 million;
- (iii) increase in revenue from ancillary support and other services by approximately S\$0.7 million due to increased revenue from leasing of vehicles; and
- (iv) slight increase in revenue from sales of goods and milled waste by approximately S\$0.1 million.

### Cost of sales

Our cost of sales decreased by approximately S\$6.7 million from approximately S\$45.6 million for the six months ended 30 June 2022 to approximately S\$38.9 million for the six months ended 30 June 2023, representing a decrease of approximately 14.6%, primarily as a result of the decrease in cost of sales was in line with the decrease in revenue as discussed above.

### Gross profit and gross profit margin

The Group's gross profit increased by approximately S\$0.3 million from approximately S\$6.9 million for the six months ended 30 June 2022 to approximately S\$7.2 million for the six months ended 30 June 2023, while the Group's gross profit margin increased from approximately 13.2% for the six months ended 30 June 2022 to approximately 15.6% for the six months ended 30 June 2023. The increase in gross profit and gross profit margin was mainly due to the more-than-proportionate decrease in cost of sales of our Group.

# Management Discussion and Analysis

## Other income and other gains, net

Other income and other gains, net decreased by approximately S\$0.8 million from approximately S\$1.2 million for the six months ended 30 June 2022 to approximately S\$0.4 million for the six months ended 30 June 2023 was mainly due to cessation of Singapore Government support for Foreign Worker Levy Rebate after June 2022.

## Administrative expenses

Our administrative expenses decreased by approximately S\$0.3 million from approximately S\$5.2 million for the six months ended 30 June 2022 to approximately S\$4.9 million for the six months ended 30 June 2023. Such decrease was mainly attributable to (i) the decrease in professional fees of approximately S\$0.2 million; and (ii) the decrease in employee benefit costs of approximately S\$0.1 million.

## Reversal of impairment of trade receivables and contract assets

Reversal for impairment of trade receivables and contract assets increased by approximately S\$36,000 from approximately S\$47,000 for the six months ended 30 June 2022 to approximately S\$83,000 for the six months ended 30 June 2023. Such change was mainly attributed to (i) reversal of allowance for expected credit loss of contract assets by approximately S\$176,000 for the six months ended 30 June 2023; and (ii) increase in allowance for impairment of trade receivables by approximately S\$93,000 in relation to increase in trade receivables that were aged over 150 days for the six months ended 30 June 2023.

## Finance income

Finance income increased by approximately S\$23,000 from approximately S\$7,000 for the six months ended 30 June 2022 to approximately S\$30,000 for the six months ended 30 June 2023 which mainly represented interest income from deposit and pledged bank deposits.

## Finance costs

The finance costs represented interest expense relating to bank and other borrowings, lease liabilities and unwinding of discount of reinstatement costs. It increased by approximately S\$0.2 million from approximately S\$0.5 million for the six months ended 30 June 2022 to approximately S\$0.7 million for the six months ended 30 June 2023, mainly due to higher average interest rates for the six months ended 30 June 2023.

## Income tax expense

Income tax expense decreased by approximately S\$0.1 million for the six months ended 30 June 2023 compared to the six months ended 30 June 2022. Such decrease was mainly due to the decrease in assessable profit.
